

## Travel Clinics Referral List

While we do provide consultations to patients preparing for international travel, for various reasons parents and some patients may be unable to use our services. For those patients we have identified the following providers of travel medicine services.

Note that Husky/Medicaid insurance does not cover consultations, vaccines, or medications needed for international travel at Wildwood Pediatrics. Because of this limitation we cannot provide this service to our patients insured by these policies. Some of the providers above accept Husky/Medicaid insurance in varying degrees. **We strongly encourage parents to check beforehand with whomever they see in order to sure how much of the visit will be covered by insurance.**
